## STRATFORD STRIP STAYS IN GARVIN

GOV. ROBERTSON DECLINES TO CALL ELECTION TO VOTE ON PROPOSED CHANGE.

Gov. J. B. A. Robertson declined to call an election in the three-mile strip of territory on the eastern end of Garvin county for the purpose of voting on the question of joining Pontotoc County at the hearing Wednesday afternoon, according to information brought back by Hon. Luther Harrison. The petition asking for the election was signed by 243 voters, but there was another petition signed by 310 protesting against the calling of the election. Governor Robertson took the position that it would be useless to call the election in view of the showing of the two sides.

Mr. Harrison says there were more citizens of Stratford in Oklahoma City protesting against the calling of the election than there were favoring it. Mr. Harrison was the only citizen of Ada present at the hearing and he took no part in the discussion.

This ends, for the time being at least, the prospect for the addition of this territory of 45 square miles to Pontotoc County. The citizens of Ada and Pontotoc County have taken no part in the controversy whatsoever, except to extend to the citizens of this strip an urgent invitation to come in and assure them a hearty welcome if they desired to join this county. The move was begun by citizens of the strip and pushed by them. While for the time being the territory will remain in Garvin county, it is the general belief here that sooner or later the strip will vote itself into Pontotoc.

There are several reasons for this belief, residents of Ada contend. One is that there is good railroad service between Stratford and Ada, permitting the citizens to come over on the train and go back with little inconvenience. Another is the fact that good roads lead from all parts of the strip to Ada. Whether they become citizens of Pontotoc is a matter, however, for the citizens of the strip themselves to work out. When they get ready to come in, they will be given a hearty welcome. If they do not come in at all, they will be looked upon as a part of the territory of Ada and can get anything they want from Ada, the business men here say.

## BUILDING AND LOAN IS BEING ORGANIZED

At a meeting well attended by representative citizens at the city hall yesterday afternoon, the Home Building and Loan Association of Ada, Oklahoma, began to take on a tangible form.

A board of directors was elected, composed of R. W. Simpson, M. R. Chilcutt, W. H. Ebey, P. A. Norris, M. C. Wilson, C. C. Randle, F. J. McFarland, R. E. Blanks and C. H. Rives.

The capital of the company was fixed at \$250,000.00, shares \$100.00 each. There will be no commissions paid for selling this stock. Every dollar derived therefrom will be devoted to the concern, that of helping to finance home-building in Ada.

Stock will be offered for sale within the next day or two, and it is believed that every dollar's worth of stock placed on the market will be taken by home people.

The organization of the association will be completed at once and a charter applied for.

The directors met this morning and the following subscribed for the number of shares designated:

R. W. Simpson	100
P. A. Norris	100
C. H. Rives	30
Clyde C. Randle	30
S. M. Shaw	30
John P. McKinley	30
W. H. Ebey	25
Tom King	25
R. E. Blanks	25
F. J. McFarland	25
M. C. Wilson	25
H. W. Wells	25

This makes a total of \$48,500 out of a total capitalization of \$250,000.

## HEAVY SNOW IN TEXAS PANHANDLE

AMARILLO, Tex., April 10.—Traffic is practically at a standstill following a snow storm which began late last night. Over ten inches have fallen and no sign of abatement is indicated. Wire service, including electric lights and railroad service, are handicapped. The snowfall over the Panhandle is apparently general. Little damage will result to crops, it is thought, although cattlemen may suffer considerable losses.

## GOOD PROGRESS ON PEACE TREATY

WILSON PLEASED WITH WORK; END BELIEVED ALMOST IN SIGHT.

By the Associated Press  
WASHINGTON, April 10.—President Wilson is "hammering ahead" and has made "good progress" in his negotiations in Paris, according to advices received early today at the White House.

The tone of the note is the most optimistic that has come from him to date and is taken to indicate that the main points of difference are virtually solved and that the remaining details of shaping the peace treaty will be speedily disposed of.

## TROOPS QUIET DISTURBANCE

ESSEN STRIKERS UNDER CONTROL; MUCH UNREST IN SAXONY.

By the Associated Press  
BERLIN, April 10.—Government troops are reported to have entered Essen and to have occupied the Krupp gun plant which, according to previous advices, had been seized by Essen strikers. The troops posted artillery and machine guns at the plant entrances and two-thirds of the workers resumed their labors.

Much unrest is reported from Saxony where communists in the southwestern part of the state have issued a demand that Saxony be made a soviet republic. A large proportion of the Saxony miners have struck.

**Bavaria Friendly to Russia.**  
BERLIN, April 10.—Diplomatic relations have been established between the Russia and Bavarian soviet governments, according to the newspaper Zewolffblatt.

**Soviet Republic Proclaimed.**  
LONDON, April 10.—The proclamation of a soviet republic in Salzburg, German Austria, is reported in an Amsterdam dispatch today to the Central News. Salzburg is near the Bavarian border.

## HUNS MAY KNOW TERMS FIRST

REPORTED PLAN TO SUBMIT TERMS BEFORE COUNCIL SEES THEM.

By the Associated Press  
PARIS, April 10.—Publication in Paris today of a statement attributed to British sources to the effect that the terms of the peace treaty would not be presented to the plenary session of the peace conference until after they had been communicated to the Germans caused much comment among delegates of nations not represented in the Council of four. The publication brought from the American mission a statement that it was opposed to such plan.

## LANSING AGAINST JAP LEGISLATION

TELLS CALIFORNIA LEGISLATURE WOULD BE SERIOUS OBSTACLE.

By the Associated Press  
SACRAMENTO, Calif., April 10.—Introduction of anti-Japanese legislation in the California legislature at this time, said Robert Lansing, secretary of state, in a cablegram to the state senate, receives warm support by the California legislature asking if a discussion of Japanese legislation at the present time would embarrass American peace delegates at their deliberations. The Lansing cablegram was read when a rule was called up denying a certain senator permission to introduce a bill prohibiting Japanese from leasing agricultural lands in California.

**A Serious Accident.**  
Miss Mollie Baker in surmounting a ladder leading to the roof of Jim Couch's residence which he was painting suddenly let her foot slip or became intoxicated with the ethereal regions and fell to the ground. As a consequence she is suffering today from a sprained ankle. We hope to see Mollie at her post of duty again soon. But we would offer as a friendly suggestion that in the future when on seeking higher regions not to risk the ladder route—get an aeroplane!

## FURTHER DETAILS OF JESSE STORM

ONE KILLED AND FOUR SERIOUSLY INJURED; SEVERAL HOUSES WRECKED.

From the best information obtainable, the cyclone which passed near Jesse Wednesday morning about 2 o'clock, originated near Bromide, blowing down the Jackson school house northwest of that place. The next report from the home of W. S. Duty, three miles south of Jesse, in which there were nine people when it was destroyed. It was a two-room log house. The only one hurt here was Mrs. Duty who was slightly injured.

About half a mile from the Duty place the home of Ed Reed was wrecked. At this place Mrs. Jane Lamkin, an Indian woman, was killed and her son seriously injured. Her two months old infant escaped injury. Mr. Reed's family was visiting at Pontotoc and he himself took refuge in the storm cellar. Mrs. Lamkin and children left their home and went to his house for refuge when the storm appeared. Their home was not hit.

Mrs. Josephine Collins and her son were both badly injured and Jack Lack was blown about 100 yards and seriously injured. All the injured ones were taken to Stonewall for medical attention.

Southeast of Jesse the homes and barns of J. H. Bookout and H. H. Moss were blown to pieces, but no one was seriously hurt. Mr. Bookout lost 300 bushels of oats and some hay which the wind scattered. Mr. Moss's garage was wrecked and his new car carried out to an adjoining field.

The storm is reported to have varied in width from fifty yards to a quarter of a mile. The last place reported struck was Paul Harrell's house near Debs school house in Coal county, some fifteen or twenty miles from the starting point. The house was blown from its blocks, but no one hurt.

A terrific rain is reported by persons from Jesse, considerable damage resulting from this and the overflowed creeks.

LATER—Jack Lack died at noon today from injuries received when the Reed house was wrecked. The other injured ones were reported doing very well at that hour.

## ADA HIGH SCHOOL FIELD DAY TOMORROW

The Ada High School, under the auspices of the H. S. V. U. S. boys, conduct their Field Day April 11th, beginning with a tennis tournament at 8:30 o'clock and closing the field and track events with ball scaling and company drill. Any high school lad may enter in any event he so desires on Field Day.

The following is a list of the names of the boys who will take part in the Field Day events and who will also be entered in the District Meet in the various events specified below:

**100-Yard Dash** — Webb Riddle, Harvey Neely, Donn Evans, Guy Orr.  
**220-Yard Dash** — John Baker, Webb Riddle, Donn Evans, Harvey Neely.  
**440-Yard Dash** — Donn Evans, Travis Kerr, Roland Roquemore, John Baker.  
**880-Yard Run** — Roland Roquemore, Travis Kerr, Julius Weston, Judson West, John Baker.  
**1 Mile Run** — Travis Kerr, Julius Weston, Judson West, Roland Roquemore.  
**Low Hurdles** — Aubrey Kerr, Hardy Roach, Webb Riddle, Harvey Neely.  
**High Hurdles** — Hardy Roach, Harvey Neely, Aubrey Kerr.  
**High Jump** — Julian Allen, Charles Cunningham, Guy Orr, Harvey Neely.  
**Broad Jump** — Hardy Roach, Webb Riddle, Guy Orr, Charles Cunningham.  
**Pole Vault** — Julian Allen Travis Kerr, Charles Cunningham.  
**Shot Put** — Aubrey Kerr, Hardy Roach, William Crawford.  
**Javelin** — Hardy Roach, Aubrey Kerr, Travis Kerr, William Crawford.  
**Discus** — William Crawford, Aubrey Kerr, Travis Kerr.

Harry Scheinberg makes the following statement in regard to the District Meet: "We have been working hard at the High School, having had more advantages this year than any previous year in the way of equipment and interest. But the people of Ada must not expect too much from a team as young and inexperienced as that which represents the Ada High School. The boys are giving the best they possibly can, and although we are not counting on winning the District Meet, we know the Ada boys will make some school hustle for the honors. With the experience of this year and with the present nucleus Ada can expect to have a championship team for next year. We would like very much to have a large crowd out to root for Ada boys."

I take pleasure in announcing to my friends that I have accepted a position as salesman for the Ada Music Co., I shall be glad to talk with you with reference to equipping your home with music.—Mr. Will Schriber. 4-9-2t

## PERSUADES MEN TO RETURN

AMERICANS DECLARE WAR OVER HESITATE TO RETURN TO BATTLE.

By the Associated Press  
ARCHANEL, April 10.—A company of American troops recently showed some hesitation at returning to the fighting front south of Archangel, declaring the war with Germany was over and that the United States was not at war with the Bolsheviks. The regimental commander in a speech said they were fighting a desperate defensive battle and appealed to them to stick it out. The company then left for the front.

## HUNGARIANS AND CZECHS FIGHT

By the Associated Press  
LONDON, April 10.—Violent fighting has taken place between Hungarians and Czechs at Ungavar, near the Moravian-Hungarian border, says a Central News dispatch from Amsterdam today. One hundred and fifty Hungarians were killed. The Czechs also suffered considerable losses.

Either the public is being misled or else the Hungarians don't know how to pull off a genuine bolshevik revolution. It is said that the bourgeois class is being given protection, the red guards held strictly to discipline and that the workers have been forbidden to strike. Furthermore, there will be no destruction of property. If this program is carried out Lenin and Trotsky will repudiate the Hungarians as pikers.

Occasionally one speculates on what is to become of the inhabitants of the earth when the fuel supplies are exhausted. That is a long time off, but there is no doubt that the problem will be solved before it becomes acute. Probably the next generation will learn how to take electricity from the atmosphere of outside space and transmit it to the consumers by wireless. This is no more out of the bounds of reason than talking half around the world via wireless which is now an accomplished fact.

Before the month is over it is highly probable that the first air flight across the Atlantic will have been made and in another year or two these trips will be everyday occurrences. In a few more years regular lines will be in operation and men in a hurry to cross will go via airship instead of steamer. It is a far cry from the three months voyage of Columbus to the one of twenty-five hours by airplane. Man has from his earliest days on the planet fought against the limitations of time and space. He overcame time by means of electricity, reduced distance by means of steam and gasoline and now reduces space to a minimum by means of the gasoline driven airplane.

### SHALL WE CLEAN UP OR MOVE OUT OF THE CITY?

"My home town looks so dirty now," was the remark made by a woman who lives here on returning from a few days visit in Oklahoma City. She went further to state that, "I guess I'll just have to move up there."

For the most part we learn the great life lessons by comparison. This same woman, who for years has lived here, might have gone on thinking that our city was as clean as the average one, knowing that conditions were not altogether sanitary, had she not gone from out her own city gates and viewed cleaner streets and alleys, and better kept lawns, not realizing the dire necessity of "re-mov-ing the mote from our own eyes."

It is a statistical fact that one out of seven babies born in the United States dies from summer complaint each summer caused from

unsanitary surroundings and impure food, which of course is a direct result of uncleanness. Although the writer has not seen the statistics of our own city concerning this death rate, it is believed that ere many more moons have come and gone and summer will have reached her zenith we will find yonder in the silent city of the dead a little mound which will be a reminder to you of your gross neglect in allowing the existing conditions now prevalent in our midst.

The seemingly insignificant household will within a few days make its appearance. It has been said that "An ounce of prevention is worth a pound of cure." Let us apply this old adage by getting busy and keeping busy to remove the breeding places. How about your back alley? Your garbage barrel? And your chicken yards? saying nothing of hog pens, lob-lolles and etc.

Just because our Honorable Mayor has set apart a few days out of one month as clean up days are you going to lay aside your broom and rake and hoe for the rest of the spring and summer to be seen idly loafing in your back yard or sun-bathing on your front porch?

## SOLDIERS AND SAILORS URGED KEEP INSURANCE

New Orleans, April 10.—Discharged sailors and soldiers who have dropped their war risk insurance are urged by Ensign E. P. Thornton, District Insurance Officer, New Orleans, La., to take steps to reinstate their insurance. His statement is as follows:

"Uncle Sam went into the insurance business for the benefit of the lads who stood like a stone wall between civilization and 'Kultur.' His reason for this was to give his boys gilt edge insurance at the smallest possible cost. With the government backing the company and bearing all operating expenses, it can issue a policy the value of which has never before been equalled.

New Bureau Created.  
"After war ceased many of the soldiers and sailors came back to civil life, and, unfortunately, many left the service in the rush of discharges without being made to appreciate and understand the value of their insurance and the method of keeping it up. Hence, many have, because of lack of information, allowed their term insurance to lapse, and many more are on the verge of doing so.

"So the Bureau of War Risk Insurance created a Conservation Section. A mighty campaign is being conducted with the purpose of giving every man with insurance, and every man who has unwisely dropped his insurance and every beneficiary who is so vitally concerned, the cut and dried facts. They are:

**Facts Are Cited.**  
"Why should the men keep up the term insurance?

"Because it is protection against both death and disability, can be carried for a premium within the reach of the flattest purse (65 cents per thousand per month at age of twenty-one, for example)—and because those who carry it are going to have the privilege of converting it at any time within five years after the declaration of peace into the soundest, most liberal and cheapest insurance that was ever offered.

"It is a privilege confined absolutely to Uncle Sam's uniformed backers, either in service or now discharged. It is a reward for their many sacrifices of time and vocation and, sad to say, sometimes life.  
"Gas, exposure and combat have taken their toll of health and many of the boys will never get outside insurance, due to their service, but when the time comes for conversion of Uncle Sam's present term insurance into permanent forms, if a man still holds his term insurance, that's all Uncle Sam wants to know about his health. If he was physically sound enough to get into uniforms he is sound enough to get in on a government policy.

**Uncle Sam's Policies.**

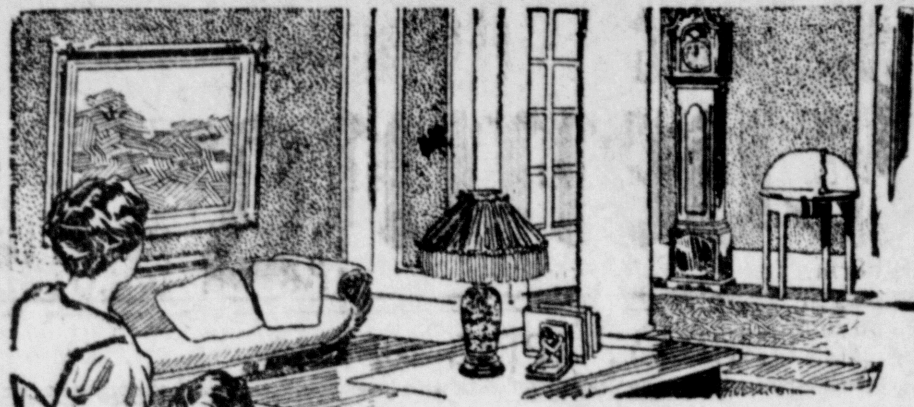

"Uncle Sam's policies will insure against disability during the entire lifetime of the insured, a feature the cost of which, on the outside, would be almost prohibitive. If a man becomes disabled to the extent that he cannot engage in a substantially gainful occupation, \$5.75 per month per one thousand dollars of insurance is his for the remainder of his life, no matter if he is disabled at age twenty-five and lives to be one hundred. The government gives this feature free, the premium charge being based only upon the cost of death and not disability.

"If a man reaches the age of sixty, he stands one chance in two of becoming disabled through disease, accident or old age during the remaining years of his expectancy of life, statistics show, and if he reaches the age of seventy, his chances of living the remainder of his life without becoming disabled are only one in four.

**Privileges Are Many.**  
"Some of the other privileges of the policies are liberal cash and loan values, paid up and extended insurance, incontestability from date of issue, freedom from all restrictions as to residence, travel or occupation, dividends from any gains and savings, and proceeds of all policies to be exempt from all taxation.

"Uncle Sam is going to issue six standard policies—a policy to meet the need of every average man. They are: Ordinary Life, 20-Payment Life, 30-Payment Life, 20-Year Endowment, 30-Year Endowment and Endowment maturing at age of sixty-two. His premiums are going to be about 25 per cent lower than those of outside companies. Premiums will be payable monthly, quarterly, semi-annually or annually?

"If a man has dropped his term insurance he should write immediately to the Bureau of War Risk Insurance, Washington, D. C., stating his full name and address, rank and organization at the time of applying for insurance, the date of his discharge or separation from service, month for which last premium was paid, and ask them what to do. It is very probable that he will be reinstated. If he has just left the service he should mail all future premiums on the first day of the month for which each premium is due to the Disbursing Clerk, Bureau of War Risk In-

### American Toy Makers Thoroughly Entrenched

CHICAGO, April 10.—Toy manufacturers of America who found their opportunity when war shut off imports, believe they are now sufficiently entrenched to retain the business thus gained. They even expect to do some exporting when shipping facilities are available.

The toy makers are holding a fair here, with Christmas good spread over several floors of a downtown hotel. It was said that scores of buyers who recently made the usual annual pilgrimage to the French and

English fairs, with a look into the general European market, returned virtually empty-handed, more than ever convinced of the economy and efficiency of the American market.

To compete with the cheap labor of Europe and Japan, Americans have had to offer inducement other than price, such as ingenious mechanisms, durability and educational value.

The Japanese can undersell them ninety percent, it is said, on ornaments for the Christmas tree, but the Americans have perfected tinsel, wreaths, and colored globes that are expected to hold the market because they are practically indestructible and are fire-proof.

In the higher-priced mechanical toys America has always led, and had even been an export. This trade of course will remain, dealers say. Immense quantities of dolls formerly came from Germany, and bisque heads are still imported from France, but to all intents and purposes America is now manufacturing dolls, the traders averred.

"The Germans used to dress their dolls in their own conception of the style of the countries to which they were to be exported," said the dealer. "The results was often funny. Since America entered the doll business the play-babies have been gowned in faithful reproductions of what we have seen on Fifth Avenue."

Airplanes and tanks figure largely in the novelties. One of the toy planes is said to fly 200 yards under its own power derived from a spring. Another is fitted with an electric motor which, attached to a light-socket by a wire, will float about the room for hours. Some of the toy tanks, too, are very practical climbers of obstacles. Another novelty is a ferryboat on wheels. When the boat hits its prow against a wall a mechanism turns it about for the return trip.

For the girls there is a doll that walks and talks.

To cleanse the blood, strengthen the kidneys and regulate the stomach, liver and bowels, Prickly Ash Bitters is a remedy that has proved its worth. It promotes activity in body and brain.

## OKLAHOMA WHEAT 100 PER CENT

GUTHRIE, April 8, 1919. — The condition of the Oklahoma wheat crop on April 1, 1919, is 100 per cent showing unusual prospects for an excellent wheat crop to be harvested in 1919. The acreage sown fall of 1918 was estimated at 3,590,000 acres with a condition of 100 per cent or normal on December 1. Rain-fall was adequate during the fall and plenty of moisture has been available throughout the winter in the form of snow and rains, with more or less uniform temperatures, also an excellent supply of moisture in most sections of the state during the latter part of the winter and warm weather in March caused the crop to put on a very excellent and vigorous growth up to April 1. In many ways the general condition is more favorable than the very high condition of 1914 in that the vegetative growth at this time is not so rank and consequently will not sap the ground of moisture as quickly as in that year. The unusual acreage, probably the heaviest ever sown to wheat in Oklahoma, occasioned by favorable seeding conditions, the absolute need for fall and winter pasture, Federal Seed Grain Loans on nearly 300,000 acres of grain in western Oklahoma, general economic conditions and the desire of Oklahoma farmers to do their part in National Food Production induces a general wave of optimism throughout the entire state. There is no deterioration of importance except in one or two of the extreme western counties where late sown wheat failed to make a substantial growth and being slow in coming up this spring has suffered some from high winds. Insect damage is at a minimum for the state as a whole. It is especially gratifying to record the unusually high condition through out the southwestern counties where such an excellent acreage was seeded last fall following the most extreme drought ever witnessed which, if favorable conditions continue, forecasts the heaviest crop ever produced in that section.

## REGULAR HABITS NOW; CONSTIPATION GONE

Mr. Brooks Suffered for Years— Tells How He Got Relief.

"I have tried a great many things for constipation, but the only thing that has been able to relieve me is Milk's Emulsion. I am on only my second bottle and have to take very little of it now. My bowels move regularly every morning, which they have not been doing for a number of years. It seems like living again, after suffering so long. I recommended Milk's Emulsion to two of my friends and both say it is the best remedy they ever heard of."—Elmer C. Brooks, 329 Washington St., Peoria, Ill.

Constipation weakens the bowel muscles. Salts and purgatives only increase this condition. Milk's Emulsion is a real corrective remedy—one that you can try, under its guaranty, without risking a cent.

Milk's Emulsion is a pleasant, nutritive food and a corrective medicine. It restores healthy, natural bowel action, doing away with all need of pills and physics. It promotes appetite and quickly puts the digestive organs in shape to assimilate food. As a builder of flesh and strength, Milk's Emulsion is strongly recommended to run-down nervous people, and it has produced amazing results in many cases of tuberculosis of the lungs. Chronic stomach trouble and constipation are promptly relieved—usually in one day.

This is the only solid emulsion made, and so palatable that it is eaten with a spoon like ice cream. A truly wonderful medicine for weak, sickly children.

No matter how severe your case, you are urged to try Milk's Emulsion under this guaranty—Take six bottles home with you, use it according to directions and if not satisfied with the results, your money will be promptly refunded. Price 60c and \$1.20 per bottle. The Milk's Emulsion Co., Torne Haute, Ind. Sold and guaranteed by Gwin & Mays Drug Co. (Adv.)

Don't Forget This.

According to an English scientist's estimate the world's total annual rainfall amounts to 29,457.4 cubic miles, of which less than one-fourth drains through rivers into the ocean.

Must Take the Risk.

## IT'S NOT YOUR HEART; IT'S YOUR KIDNEYS

Kidney disease is no respecter of persons. A majority of the ills afflicting people today can be traced back to the kidney trouble.

The kidneys are the most important organs of the body. They are the filters of your blood. If the poisons which are swept from the tissues by the blood are not eliminated through the kidneys, disease of one form or another will claim you as a victim.

Kidney disease is usually indicated by weariness, sleeplessness, nervousness, despondency, backache, stomach trouble, pain in loins and lower abdomen, gait stones, gravel, rheumatism, sciatica and lumbago.

All these derangements are nature's signals that the kidneys need help.

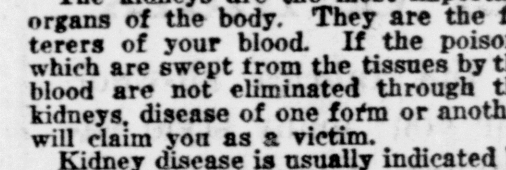

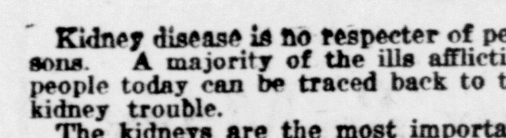

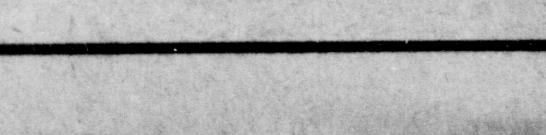

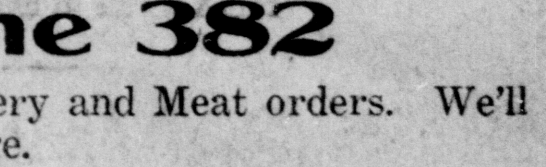

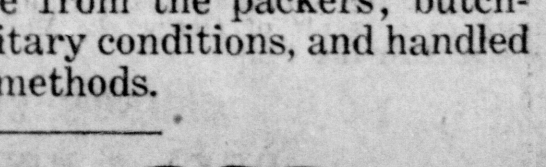

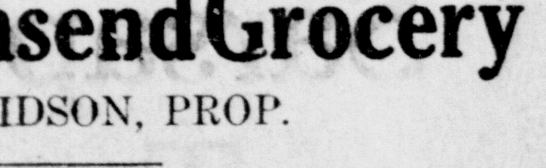

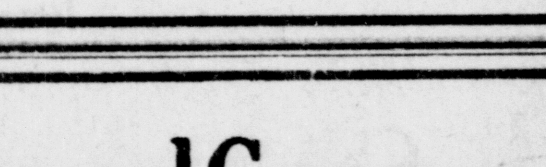

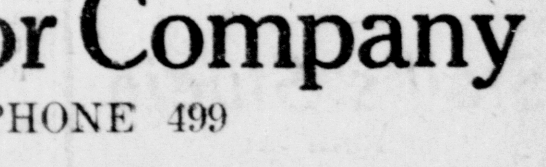

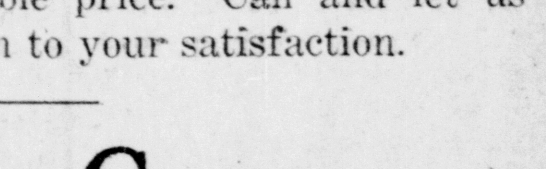

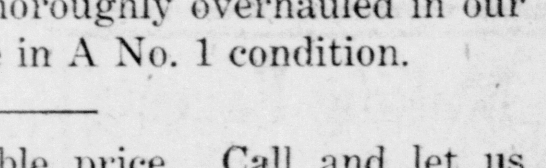

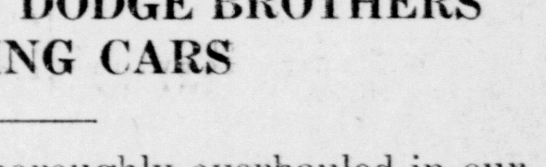

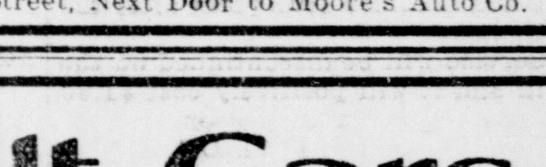

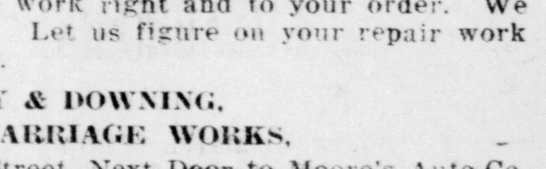

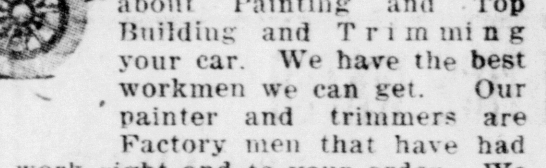

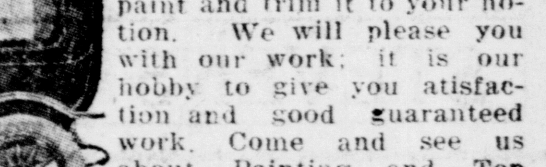

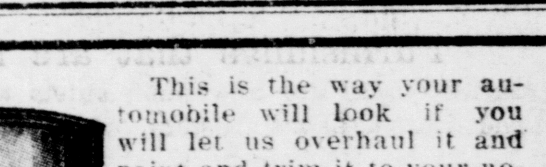

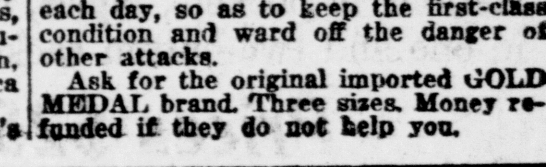

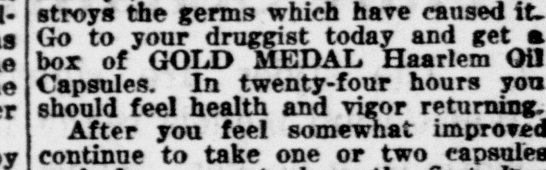

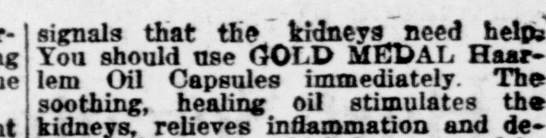

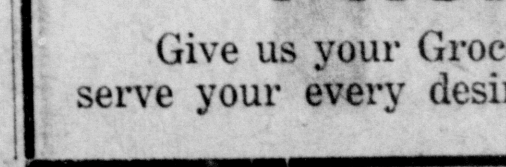

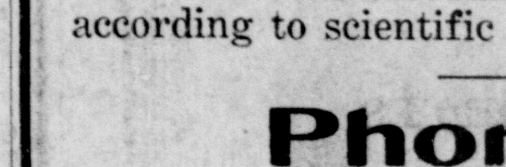

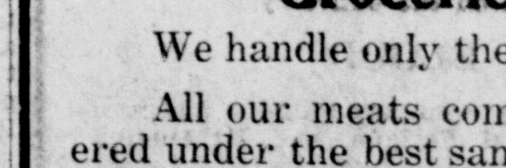

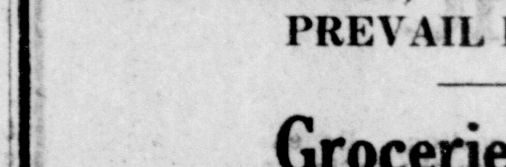

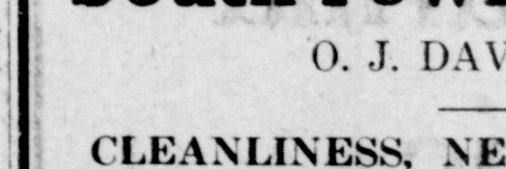

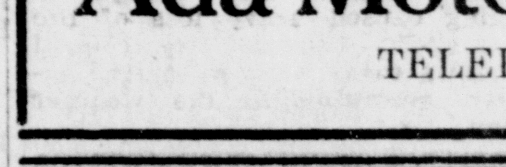

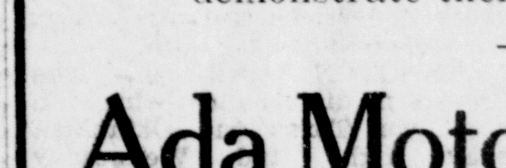

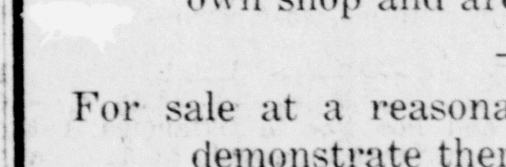

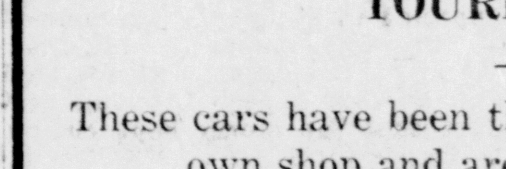

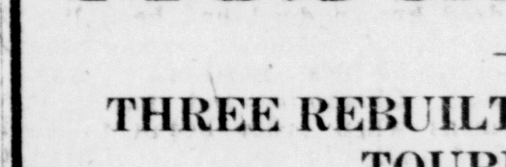

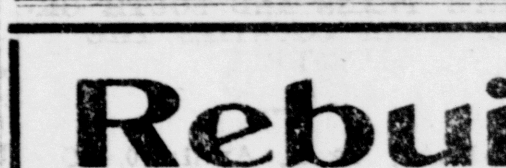

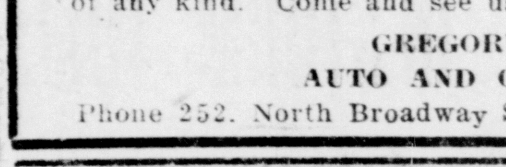

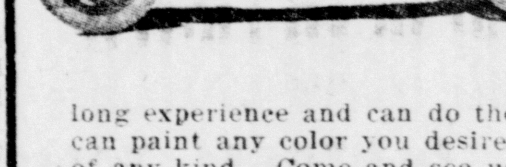

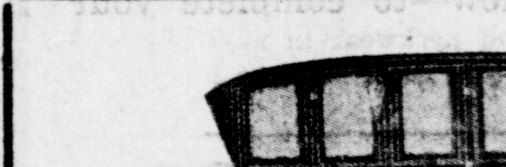

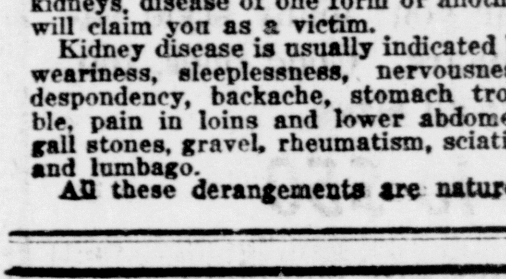

You should use GOLD MEDAL Haaslem Oil Capsules immediately. The soothing, healing oil stimulates the kidneys, relieves inflammation and destroys the germs which have caused it. Go to your druggist today and get a box of GOLD MEDAL Haaslem Oil Capsules. In twenty-four hours you should feel health and vigor returning.

After you feel somewhat improved continue to take one or two capsules each day, so as to keep the first-class conditions and ward off the danger of other attacks.

Ask for the original imported GOLD MEDAL brand. Three uses. Money refunded if they do not help you.

This is the way your automobile will look if you will let us overhaul it and paint and trim it to your notion. We will please you with our work. It is our hobby to give you satisfaction and good guaranteed work. Come and see us about Painting and Top Building and Trimming your car. We have the best workmen we can get. ## Grow Your Own Vegetables

You can grow an abundance of food in your own garden plot—crisp, luscious vegetables for your table, vegetables to can, vegetables to store in your cellar.

Garden success is more certain if you start with dependable seeds. Northrup, King & Co.'s seeds are bred to produce vegetables of fine flavor. They are hardy, vigorous seeds, carefully tested every season. Thirty-five years of success are back of them.

Dealers in nearly every community can supply these seeds. Look for the Northrup, King & Co. sign and buy now all the seed you will use this season.

**THE MEMORIAL GATEWAY**  
By President J. M. Gordon.

There is a tendency to forget the hardships and privations that our

"Boys endured in the Great War? Is there just a little feeling that 'Well, well, it's over now and the best said and done about it the better?' If such a feeling exists to any appreciable degree we certainly need to be reminded that they gave up everything and risked all for the humanity of the world. And we must remember that our own boys turned the tide and made victory for humanity possible.

With this very thing in view East Central State Normal School has had definite plans for the erection of a Memorial Gateway at the entrance to the Normal School campus, the gateway to be constructed in such a

way as to show to every passerby that the Normal School and its friends appreciate heartily and fully the splendid work done in the Great War by the more than four hundred soldiers who had been students in the institution.

How much the cost of this memorial be met? Should we have the legislature appropriate \$5,000 to meet the cost? This would not seem very patriotic on our part, would it? Then, again, the legislature has adjourned. And while it did appropriate about \$240,000 for the Normal, more than twice as much as has ever been appropriated since the founding of the school, it did not make an appropriation for a memorial gateway. Anyhow, let's think about the gateway, what it would stand for and how beautiful it would be, until tomorrow and then discuss the raising of the funds.

### Suffered With Rheumatism, Catarrh And Stomach Trouble.

"I think 'No. 40 For the Blood' as a blood purifier has no equal. When I began to take 'Number 40' I was in very poor health as I had Rheumatism, Catarrh, Stomach Trouble, Lead Poisoning, and an Itch that I had tried almost every known remedy to relieve. I have taken six bottles of 'Number 40' and am on a fast road to recovery. I owe my life to it as I used to weigh 127 pounds and now weigh 148, my usual weight. I could write more but this should be enough to convince the most skeptical, and you are at liberty to use this letter anyway you desire." Geo. Klinker, Lima, Ohio.

The ingredients in "Number 40 For the Blood" are set down in the U. S. Dispensary and other reliable medical books as follows: "Employed in diseases of the glandular system, a blood poison, constipation, stomach and liver troubles, chronic rheumatism, catarrh, sores, ulcers, skin eruptions, mercurial and lead poisoning. Under its use nodes, tumors, serofulous swellings that have withstood all other treatment disappear as if by magic."

### ADVENTURES AMONG THE BOLSHEVIKI

OMSK, Siberia, Feb. 12.—(Correspondence of The Associated Press)—Exciting adventures have fallen to the lot of Mrs. Carl C. Compton, of Chicago, who, with American womanly pluck, has accompanied her husband in many months of humanitarian relief work among the Armenians and later during the most exciting moments of the Bolshevik revolution. They had never left Illinois before coming to the Caucasus for the committee on Armenian relief. Now, Mr. Compton is in charge of the American Young Men's Christian Association work at Omsk.

They were first stationed at Alexandropol, Caucasus, then in the hands of the Russians and were occupied with industrial relief work. Positions were found for refugees as they arrived, fleeing from Turkey. The estimate that they and other members of the corps distributed clothing for 15,000 Armenians orphans, whose parents had been massacred by the Turks. Help was furnished to about 60,000 refugees.

Then, suddenly, the Russian revolution developed. The Bolsheviks abandoned the battle front and the Turkish army advanced. It was feared that Germans would come down the Black Sea and seize the line from Batum to Tiflis. The American consul advised all the Americans to leave at once, and special train conveying sixty foreigners finally arrived at Baku on the Caspian Sea. There they were caught in a battle between Bolsheviks and Armenians on one side and Tartars on the other. The street in which they lived was dominated by Tartars who sprayed the roadway with machine-gun bullets. For three days they did not dare leave the house and had only bread to live on. Eventually, by paying a high price, they were able to charter a special steamer for Astrakhan, which is situated at the mouth of the Volga. "We had to sleep on the deck throughout the whole trip," said Mrs. Compton. "The crew and the families of the crew slept in the cabins, and refused to give them up."

"We waited for two weeks for the ice to break up in the Volga and then we went up to Samara. The others went on to Vladivostok. The Bolsheviks were in possession of Samara then, but we were able to travel on general relief. Thousands of refugees came through and we started a soup kitchen at the station. Later, maternity and general hospitals were organized."

"We had rather an exciting time at Samara when the Czechs came in. We lived not far from the river between the Bolshevik barracks and the principal Bolshevik club of the city. The place drew most of the shell-fire from the Czech army. Bullets came through our windows and our room became filled with brick dust from the exploding shells. The Bolshevik soldiers lay flat upon the roof and fired down on the Czech soldiers, so we had a very good view of the fighting. From my window I could have touched the Bolshevik troops with my hand."

"We were awfully glad to get down into the cellar. There was a slit in the wall and we could see the end of the battle. Finally we heard the Czechs cheering and saw people running from the houses, all making the sign of the cross. The Czechs had won. Everybody put on their best clothes and paraded in the streets with bands. Collections were taken up for the Czechs, who were hailed as heroes and deliverers."

"When the Bolsheviks had the city we would see them lying in the streets. They were always chewing sun-flower seeds."

Mr. Compton said he had never seen any Bolshevik atrocities but he had seen proclamations issued by the Bolsheviks declaring they would butcher the people if they captured the city. He said that once a Bolshevik broke into an American's room but had immediately apologized, adding that America was the only friend Russia had.

Mr. Compton also said that Russian officers told him nine-tenths of the people became Bolsheviks because they didn't have enough to live on, and because they thought anything would be better than their present condition.

#### AIRPLANE AMBULANCES FOR CARRYING WOUNDED

DALLAS, Tex., April 10.—The government is arranging for the construction of airplane ambulances especially equipped with stretchers and so designed as to insure safety and comfort of wounded men.

In making the announcement, Major J. O. McKeon, flight surgeon of the American army, urged that all flight surgeons be trained sufficiently to operate their own machines.

He told delegates to the congress of American flight surgeons that the airplane ambulance, developed while war was in progress, had greatly reduced the number of deaths at training camps because of prompt arrival of surgeons.

The congress decided to make the Association of Flight Surgeons a permanent organization to include all medical officers in the air service. Final organization will be made at Atlantic City in June when the American Medical society meets.

#### MANY AMERICANS CARED FOR IN BRITISH HOSPITALS

LONDON, April 10.—The total number of American soldier patients in hospitals in Great Britain during 1918 was 47,862. About one-fifth of them were wounded or injured, the remainder ill. When the armistice was signed 9,310 Americans ill and wounded were being cared for in American hospitals here, says an American Red Cross report.

When the United States entered the war the only hospital beds available for American soldiers were in two or three American Red Cross hospitals which were then being used for British troops. So rapidly were provisions made by the Red Cross that by the time American troops began to pour into France and England the supply of American hospital beds was ample. It was only during the influenza epidemic last fall that the demand exceeded the supply. In October and November many cases had to be sent to British hospitals, where at one time the number of Americans cared for reached 5,584.

The United States army personnel engaged in American hospitals in Great Britain numbered about 3,200 that of the American Red Cross was about 400.

ROFF, Okla., April 10.—(Special) The Roff High School on last Monday held its local tryout in track and field events to determine who would represent the school in the spring meets. The school is planning to enter the county, district and state.

George Washington who has made a great record in foot ball, basketball and base ball broke two E.C.S. N. district records. He ran the 100 yd. dash in 14.5 seconds and put the shot 41 feet, 3 inches. Washington not only won these two places but won first places in 220 yd. dash 440 yd. dash, running broad jump and javelin. Other winners in Class A were Buford Merritt in Pole Vault, Bob Miller in the 1-2 mile races, Edgar Dixon in the low hurdles, Barney Mays in High jump and Doc Tolliver in Discus throw. In class B track Eddie Berry was the all around man. He tied the district record in the 50 yd. dash running it in 6 seconds. He also won first in 220 yd. dash 440 yd. dash, broad jump and shot put. Other winners were Forrest McCracken in the 1-2 mile run, Dawson Nichols in the low hurdles and in high jump, John Allen in pole vault and Frank Givens in discus.

The track team is coached by Principal W. H. McCallister who has many honors to his credit which he won at Kingston-High school, Southeastern State Normal and Oklahoma University. In the Tennis try out Opal and Pearl Truitt won the girls doubles, Tommie Trick and Buford Merritt the boys doubles and Tommie Trick the boys singles.

In debate, Elbert Wall and Irving Bonner are to represent the school. On Tuesday night a try out was held to determine the contestants who will represent the school in literary events. Edgar Dixon was the winner of the gold medal which the First National Bank offered for the winner in boys declamation. Bessie Dowdy was the winner of the gold medal which was offered by Mr. C. C. Cooper of the Oklahoma Hardware Co. for the winner of girl's reading. Other winners were Chlorine Smith in Class A piano, Geneva Heathman in class B piano, Bernice Allen in class B reading, Kenneth Hill in Class B declamation.

Mr. Robinson, Miss Lee and Miss MacMillan of Ada were the judges of the literary contests. Mrs. W. A. Allen, Mrs. T. E. Shelton, Miss Ruby O'Neal and Miss Bertha Campbell trained the girls in reading.

Everything is in readiness for the county track, field and literary meet which is to be held here at Roff on next Friday and Saturday, April 11th and 12th. The base ball diamond and track are in excellent condition and the annual meet promises to be a great success. Already entries have been made from all parts of the county.

Roff school is an all around school. It is strong on athletic events and equally as strong on literary work. It is believed that our school is now passing through the greatest year in its history.

**TODAY'S RELIGIOUS THOUGHT**Guided By a Star.  
Matthew 2:1-23.

Here is a story in which we are impressed that God speaks to men in a language they can understand. These Chaldean wise men had been star gazers from their youth. Their watching the stars should never go unrewarded, and so the stars they loved so well brought them at last to the manger where the Babe was born king. The angels talked in their song to the Shepherds, but the wise men knew nothing of angels. They were guided by the star. They were led to Jesus by unlikely ways. Let us never limit the power of the Almighty to open paths that end in glory. Sermons these men may have never heard, but they saw the number of the star. They were mastered by strange curiosity to see the King, and yet they were very far away from him. The people in the Inn were far away in spirit. But what they found seemed insignificant indeed. Expecting to discover royalty they found a babe. We struggle on and on and come to seeming insignificant results, but when we find the Babe of Bethlehem we will know that the search has been well rewarded.

**DR. R. C. BUCKNER DIES AT DALLAS**

DALLAS, April 10.—Dr. Robert Cook Buckner, famous Baptist minister and philanthropist and "Father" Buckner to more than 12,000 orphaned boys and girls of Texas who have been inmates of the home he founded five miles east of Dallas, died at 9:30 o'clock yesterday morning at the Baptist Memorial Sanitarium. Death followed an illness of less than three days, in which he was suffering from angina pectoris, superinduced by his advanced age. He was 86 years old Jan. 3 last.

GOING BACK TO NATURE.

BY DR. W. LUCAS.

People get sick because they go away from Nature, and the only way to get well is to go back. Something grows out of the ground in the form of vegetation to cure almost every ill. Some of these vegetable growths are understood by man, and some are not. Animals, it would seem, know what to do when they are sick better than men and women. Observers have noted that a sick horse, dog or cat will stop eating food and seek out some vegetable growth in the field or yard, which, when found and eaten, often restores appetite and health. Haven't you seen these animals do this very thing yourself?

Dr. Pierce, of Buffalo, N. Y., long since found the herbs and roots provided by Nature to overcome constipation, and he had these vegetables collected and made up of Mayapple, leaves of Aloe, root of Jalap, into little white sugar-coated pills, that he called Dr. Pierce's Pleasant Pellets. You must understand that when your intestines are stopped up, poisons and decayed matter are imprisoned in your system, and these are carried by the blood throughout your body. Thus does your head ache, you get dizzy, you can't sleep, your skin may break out, your appetite declines, you get tired and despondent. As a matter of fact, you may get sick all over. Don't you see how useless all this suffering is? All that is often needed is a few of Dr. Pierce's Pleasant Pellets, which he has placed in all drug stores for your convenience and health. Try them by all means. They are probably the very thing you need right now.

**AT THE PLAY HOUSES**

## Liberty.

The Bobby Greer comedians have another excellent program for this evening and one entirely new. The picture program presents Edith Roberts in her latest role, "Sue of the South." This is one the public has been waiting for.

## American.

"Sporting Life" is a Paramount Artercraft melodrama in which a young earl who has lived too high, and a hardened veteran of the ring are the principal figures in a mix-up that has a very unexpected ending. It is in a class of its own.

The two old frame buildings on West Twelfth, next to Knott's bakery, have been torn away, leaving only two more frame buildings in the block. These buildings were among the oldest in the city and one of them was used as the city hall several years ago. It is reported that they will be replaced by brick buildings.

**The best 'single' advertisement we ever had**

happened to be a married man, who bought a Michael Stern suit last Fall for \$30 and who claims that a brother-in-law of his paid \$10 more for the same kind of serge in another make.

Immediately on making the discovery, he started a series of stump speeches in our behalf, and as we go to press—he's still at it.

This Spring we're planning to enlarge our Chautauqua Course of personal lecturers by putting the prices on our new Michael Stern suits so low, that we can't help but be way under the rank and file.

We like this kind of advertising.

THE MAN'S STORE**"The intimate article of dress known as the corset which the majority of women wear but know very little about"**

Alice S. Cutler,

IN this pertinent way the well-known medical authority, Alice S. Cutler, M. D., describes the most important garment in the wardrobe of women.

"Buy your corset carefully," warns Dr. Cutler. "No one wants to be ill, and when women realize that the constant wearing of an ill-fitting corset helps to keep our hospitals open they will insist on being properly fitted to corsets instead of buying them hit or miss."

We unreservedly recommend Gossard Corsets, the original front-lacing corsets, as the complete expression of modern corsetry. Every Gossard Corset is hygienically correct. If properly fitted to the figure for which it was designed, and carefully adjusted each time it is worn, it will mould that

figure to the ideal proportions of its type. It will give a priceless all-day comfort. It will safeguard the wearer against those bodily ailments that are often the result of improper corsetry. It will render a wearing service that alone is worth the price paid for the garment.

If possible, the new Spring and Summer Gossards are superior to those of the past season, which were generally acknowledged to be without equal in meeting the needs of active womanhood from the standpoint of comfort, hygiene, wear and figure improvement.

Our highly specialized fitted service reflects our sincere appreciation of the important relation a correctly fitted corset bears to your health and to that perfect figure poise that gives the elusive charm of style.
